

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

Claims 1-17 (cancelled).

18. (New) An apparatus for broadcasting digital video and audio signal, comprising:  
an optical reading and writing device;  
a signal output connecting port;  
a PCMCIA slot for receiving a memory card;  
a digital video and audio decompressing card, connecting to said optical reading and writing device and said memory card by a data bus; and  
an interface operating program, processing video and audio broadcasting operations.

19. (New) The apparatus of claim 18, wherein said digital video and audio decompressing card comprises a digital video and audio decompressing chip and a memory.

20. (New) The apparatus of claim 18, wherein said digital video and audio decompressing chip support decompressing processes of MPEG layer 2 and layer 3 for decompressing video and audio signal which is stored in said memory card.

21. (New) The apparatus of claim 18, wherein said memory comprises a video and audio broadcasting program and said interface operating program for broadcasting said video and audio signal through said signal output connecting port.

22. (New) The apparatus of claim 18, wherein said optical reading and writing device is a DVD device.

23. (New) The apparatus of claim 18, wherein said memory card is a compact flash card.

24. (New) The apparatus of claim 18, wherein said PCMCIA slot comprises an adapter for adapting another memory card into said PCMCIA slot.

25. (New) The apparatus of claim 21, wherein said another memory card is a secure digital card.

26. (New) The apparatus of claim 18, wherein said video and audio broadcasting program is able to identify GIF format stored on said memory card.
